## ▶ WORK EXPERIENCE

### *Penn State Athletics*

*January 2020 - Present*

I work as a videographer/editor for Penn State Athletics, capturing footage for all 31 Division 1 teams on campus. I work closely with other staff to edit and produce content for each team's social media accounts, internal projects and in-venue videos. I began as a student intern, transitioning into a full-time role upon graduating college and now have the chance to work closely with student interns and help them grow and develop.

### *The Daily Collegian*

*September 2019 - April 2023*

I began as a videographer on the multimedia staff where I filmed and edited original news stories. I was then the multimedia editor for 7 semesters, helping manage and run podcasters, videographers and graphic designers, while also running the Collegian's Instagram, YouTube and Soundcloud accounts and designing web and print graphics.

### *TheFlightMike Editor*

*July 2020 - August 2022*

I edit videos for TheFlightMike and Mikerophone YouTube channels, which include NBA and NFL sports-commentary videos. I began working during the coronavirus pandemic and both channels have gained over 200,000 subscribers during my time as an editor. My top-5 best-performing videos all have over 1.5 million views.

## ▶ FREELANCE EXPERIENCE
